On this corner lot, Bloomfield has constructed a gorgeous single-story home loaded with designer finishes throughout the open layout. Up to 4 bedrooms and 3 full baths, or use rooms flexibly. All the requirements of a modern home are here: wood-look tile floors that are easy to clean, painted cabinets with undercabinet lighting, and complementary granite and quartz surfaces. Bloomfield's Signature Series Kitchen is found within, equipping the space with a wood vent hood, pot and pan drawers, and all SS appliances built-in - even a gas cooktop! The curb appeal wasn't an afterthought either - stone and brick exterior, stained wood door on an extra-deep garage, a custom 8' front door, and stone-edged flower beds in the front landscaping. Other great features of this home include a generous Primary Suite, laundry room with storage, window seats, blinds, a covered rear patio, and a stone fireplace! Come by to tour with Bloomfield.
