Bloomfield's Dewberry II is a beautifully designed two-story home that blends elegance and functionality for modern living. Offering 4 bedrooms, including a serene primary suite on the first floor, this home boasts an all-brick contemporary elevation with an 8' Ornamental Front Door for striking curb appeal. Gorgeous Tile flooring flows through the main areas, leading to a Gourmet Kitchen with stainless steel appliances, pot and pan drawers, a wood vent hood, and expansive Quartz and Granite surfaces. A Texas-sized pantry provides abundant storage, while the open layout seamlessly connects the kitchen to a bright and inviting living space. Enjoy outdoor entertaining on the extended covered patio or retreat upstairs to the Media Room, Game Room, or front balcony—one of three covered spaces. Spacious secondary bedrooms offer exceptional comfort, while thoughtful upgrades throughout, including window seats, a tankless water heater, and elegant design touches, make this home both luxurious and practical. Set on a desirable interior lot, it's ready to welcome you home.
