CAR GARAGE

Bloomfield's Caraway plan is a simple masterpiece offering large picture windows, 4 roomy bedrooms with flexible use, 2 full baths, a powder bath for guests, and a convenient 2.5-car garage with extra space for storage or a workspace. Enhancements were thoughtfully selected to add both aesthetic & functional value: upgraded laundry room with mudroom storage, scratch-resistant laminate wood floors in common areas, a gas stub to easily connect your grill on the covered patio, full rain gutters, and premium black metal fencing along the backyard siding to a greenspace-pond view! You're bound to fall in love with this picturesque oversized backyard! Other highlights of this home include a tankless water heater, gas cooking on built-in appliances & quartz countertops in a gourmet kitchen, a wooden garage door; and a dream Primary Suite with separate vanities, linen closet, tub, shower with seat, and exit to laundry room thru the huge walk-in closet!
